

MANUEL GONZÁLEZ HERNÁNDEZ

Software Developer

PROFILE

I'm a software engineer Who loves writing code. I have been obsessed with the idea of using software to solve practical problems. Even when I leave the office, I tend to continue writing code at the house. I believe in the power of programming to transform and improve the lives of people around the world.

EDUCATION

Tecnico en Informatica, CBTa #147

2004 - 2007

The technical world, hardware, and computer fundamentals as principles of networks and programming were my first approach to being a software developer.

Ingeniero en Sistemas Computacionales, Instituto Tecnológico de Delicias

2007 - 2012

With more advanced subjects in software development, methodologies, and server learning, being a software developer would be my career.

EXPERIENCE

Gamma Partners .Net Developer, Angular Developer

Jan 2017 – May 2019

Improve and maintenance of legacy applications using .NET and Angular, always orientated to create and support custom solutions

Pk Global, Lead Software Engineer

May 2019

Designed, supported, and improved a multi-user application hosted in Azure Cloud using Angular, NodeJs + SailsJs, and PostgreSQL.

APTITUDES
